PROFESSIONAL SUMMARY

I am a seasoned Software Engineer with a track record, dedicated to creating impactful and user-friendly mobile applications. My journey in software development is characterized by a passion for translating ideas into polished, functional, and innovative software experiences. With a strong foundation in engineering and a focus on software development, I excel in crafting high-quality applications that seamlessly blend technology and user satisfaction.

WORK EXPERIENCE

App Developer

Feb 2025 - Present

TvStartup Inc. • Cebu City, Philippines

- Developed and maintained applications for Android, Apple TV, and Roku, ensuring consistent user experience across all platforms.
- Successfully published 30+ app channels on the Google Play Store and Roku Channel Store, contributing to increased brand visibility and user engagement.
- Provided advanced technical support to agents and representatives, resolving issues efficiently and improving support response times.
- Migrated Android app to Jetpack Compose (KMP), enhancing UI scalability, maintainability, and development speed.

Android Developer

May 2023 - Feb 2025

TimexGroup • Cebu City, Philippines

- Developed an Android watch simulation for the marketing department and potential clients, achieving a 90% cost reduction.
- Created and implemented a custom Web Charts Library, enhancing user experience by 20%.
- Conducted thorough code reviews, identifying and fixing critical bugs, which led to a 50% decrease in app crashes and significantly improved overall user experience.
- Developed automation test scripts using Selenium for web app testing, reducing manpower and work time by 60%.
- Optimized app performance and reduced load time by implementing best practices and code optimization, resulting in a 40% decrease in app loading time and improved user retention.

Freelance Software Developer

May 2022 - May 2023

Fiverr • Cebu City, Philippines

- Developed a fully functional e-commerce application for a small business, leading to a 40% increase in customer acquisition.
- Successfully completed a complex software project for a client ahead of schedule and under budget, demonstrating strong project management and technical skills.
- Developed and implemented a Windows application for Vital Sign graphing and CDSS integration, reducing nurses' workload by 80%.
- Created a fully functional e-commerce Android application for an HVAC business, resulting in a 20% increase in income for HVAC technicians.

EDUCATION

Bachelor of Science in Information Technology

University of Cebu - Banilad • Cebu City, Philippines

Bachelor of Science in Information Technology graduate from the University of Cebu - Banilad, with a strong academic record as a Dean's Lister. Successfully balanced work and study commitments throughout the 4-year program, demonstrating exceptional dedication and time management skills.

SKILLS

- Proficient in Mobile development using native languages Java and Kotlin (KMP and CMP).
- Experienced in automation development utilizing Selenium and Java.
